

canopy\_struct\_dynamics  
::wood\_aerodynamic\_conductances

```
graph LR; A["canopy_struct_dynamics  
::wood_aerodynamic_conductances"] --> B["allometry::dbh2vol"]
```

A diagram showing a dependency. On the left, a gray rectangular box contains the text "canopy\_struct\_dynamics" and "::wood\_aerodynamic\_conductances" on two lines. A blue arrow points from the right side of this box to the right side of a white rectangular box on the right. The white box contains the text "allometry::dbh2vol".

allometry::dbh2vol
